Bible Reading: Psalm 139: 1-3 (KJV)

*139 O lord, thou hast searched me, and known me.*

*<sup>2</sup>Thou knowest my downsitting and mine uprising, thou understandest my thought afar off.*

*<sup>3</sup>Thou compassest my path and my lying down, and art acquainted with all my ways.*

Good morning everyone,

Today I want to talk to you on the topic: Communism is the enemy of God and humanity.

I'd like to give you a summary of the development of human history. Until now people who have been moving the world, have been intellectual people, that is to say people who had a good brain. So it could be said that this was the era of the brain or the head.

But then around the time of the First and Second World War, we saw a change; people who were moving the world were people who had a lot of strength. Referring to the physical body, we could say that it was not the era of the brain so much anymore; it became the era of the arms where the strength is, and it was the era of the workers in the farms.

The reason for this historical development was that the time had come when God would reclaim everything that had been taken away into the satanic world. In other words the history of humanity was the history of God's restoration. In this time we see that a lot of intellectuals came to be on God's side; intellectuals in the democratic world today are often people who believe in God.

We see that more and more the satanic world is suffering a brain drain; more and more people with a sound mind and a good brain are going away from Satan, and in the end Satan will be kicked out. More and more Satan is losing the human beings that he was able to manipulate as he wanted to until now; soon he will have nothing and he will be kicked out by God.

To deal with this situation, Satan developed Communism, so that people would stop worshipping God, and he could claim that God did not exist. We can see more and more that the world is divided between democracy and communism. The brain is being divided and the arms are being divided. The brain represents God but also it is like the intelligence agency in the human world. The brain oversees all the activities of the human body.

In the face we see that there are seven holes. We only have one mouth but the nose, the eyes and the ears each have two holes; so the mouth plus six holes. The brain has seven holes that gather

information just like the intelligence agency that gather information. So that's how we gather information from the world.

Communism is the final means by which Satan is trying to oppose God. Now we are in the last days when Satan has no other choice but to blow himself up. In order to get people to stop worshipping God he is even willing to make it so that he himself can't be served. Such an ideology is Communism!

Communism is also an ideology that seeks to keep people from returning to God. That is why when communists have a meeting, they almost always have it at night. They make their secret decisions during the night. In contrast in the democratic world these meetings are held and decisions are made during the day. Often communists will meet in caves. The communist party is trying to spread this movement throughout the world, so that the entire world may become communist.

God is supposed to be in charge of the world, but Communism is saying, "No, we will take charge of the world!" That is the devilish group called the communist party. Communists continue threats and attacks until one day they actually invade the good side. At some point sooner or later Communism will do so. Until now it has not invaded because God's side was stronger. So we must never be fooled by this kind of deception from Satan.

And we need to know that although Satan is trying to invade, he can never take more than two thirds of God's world. In the 1<sup>st</sup> and 2<sup>nd</sup> World War countries such as Germany and Japan seemed to be doing well, but they could never go beyond that mark of two thirds and in the end they finally lost.

In God's world things grow through the stages of formation, growth and perfection. The fall occurred at the perfection level of the growth stage so there is condition for Satan to take two thirds, but he cannot go beyond that. We know that now things are being restored through indemnity. And as long as God is alive, in the end, Satan can only destroy himself. It is God who is the owner of the universe. The basic wisdom of human life is for us to fear God.

So we see in the first three verses of Psalms 139, that God sees all, hears all and knows everything about us. That is why the ultimate destination of our lives is to return to God. Communists can shout all they want that God does not exist but their end is coming soon.

It is a fact that God lives, it is a fact that He is conducting his providence and his spiritual work, and it is a fact that in the end He will win against Satan.

Thank you very much,
