Mark 16: 19-20 19:

So then, after the Lord had spoken unto them, he was received up into heaven, and sat on the right hand of God. 20 And they went forth, and preached everywhere, the Lord working with them, and confirming the word with signs following. Amen.

Good morning everyone!

Today I would like to speak to you about the meaning of True Parents.

True Parents does not refer to any individual. True Parents refer to the ideal of creation of God. God's ideal of creation is accomplished through True Parents. Because of the fall of human beings at the beginning of history, the ideal of True Parents was not realized. In order to restore this, the Providence of Restoration began. 4000 years after the beginning of this History of Restoration, Jesus came, but he was unable to find a bride on Earth, and so the ideal was not realized. 2000 years later, Rev. Sun Myung Moon came as the True Parents. He chose the young Hak Ja Han to be his bride and carried out the marriage feast of the Lamb. Therefore, for the first time True Parents could exist in a society of fallen human beings. Therefore, it became possible then for fallen human beings to believe in the True Parents and then to receive the Holy Blessing and to be resurrected and receive salvation. Therefore, human beings must believe absolutely in True Parents, must follow with True Parents, must unite with True Parents with absolute faith, absolute obedience and absolute love.

And within True Parents there is a Subject partner and an Object partner. Father is the person who comes with God's seed. He came to the Earth to find and establish a bride. It is through this bride, he is able to plant God's lineage on this Earth. Therefore, Father is the one who represents Heaven and Mother is the one who represents Earth. This is the Principle.

Therefore, Mother stands in the Object partner position to Father. She must unite with Father with absolute faith, absolute love and absolute obedience. Because she is the true mother, she must present the model of absolute faith to Father. Mother received the God's seed from Father and gave birth to 14 children. This is her first mission as True Mother and it is because she was victorious in this mission that she could rise to the stage of True Parents.

Her second mission is to protect God's Lineage as represented in her children. And they are her children but they are not of her lineage; they are of the lineage of God that was planted on Earth by True Father.

She is the mother of the True Children to whom she gave birth, but she is not of the lineage of Heaven. She is of the Han lineage. It is true that she was in the True Mother's position, but in terms of lineage, she was not in Heaven's Lineage. Just because the word "True" comes before her name, does not mean lineage of the Han mother.

We need to know this very clearly. However, unfortunately, the Han mother was not able to be victorious in her mission to protect the True Cain and True Abel who were established by Father. Instead, she chased out the person who had been appointed by Father as the representative body and inheritor and successor and elevated herself to the position of Empress.

After Father's Seung Hwa, it was her responsibility to lift up and to protect Father's Lineage, but instead of doing that, she actually was trying to erase and chasing out Father's Lineage and was lifting her own lineage and herself. In so doing, she left her position as True Mother, but that does not mean that the Providence of the True Parents was a failure. Because she, herself, left that position of True Mother, that position still remains. It is just a vacant position now. But Father was victorious in his mission and he remains in the position of True Parents. Because Father as the Absolute Subject, remains in his position and is maintaining the position of True Parents, the position of True Parents has not failed and it continues. What happened was, mother took herself out of that position of True Parents and tried to become Subject partner, herself, and that is her mistake.

So that is why, even though the Han mother chose to vacate the position of True Parents, that position remains and has not failed. Father was victorious in every aspect of his mission, but the victory in the position of True Mother still needs to be accomplished.

Father said that Mother must unite with him in the position of the Object Partner. If she leaves that position of Object Partner, then salvation will no longer be possible through her. This was truly a tragic event that happened. There is no position in the Universe that is more glorious, no more honored than the position of the True Mother. The word or term of "True Parents" of course refers to individuals, but in terms of its CONTENT, it refers to Father. It cannot be separated. This means that the two must be completely united in terms of their spirit and their thought. We have, until now, used the honorific of "True Parents" based on the assumption that they were completely one. Within that relationship of True Parents, it is Father's words; it is Father's work and Providence that is the center, not mother's words. And anyone who is a member of the unification movement throughout the world knows this. But if it is true that after Father's Seung Hwa, that Mother's will and her intentions became diverse from Father's, that would be a very serious thing.

We believe that Mother was one with Father. We believe that her relationship with Father was one of absolute faith, absolute love and absolute obedience. We believe that the two were completely one. That is why we related to Mother the same way that we related to Father. That is why we lifted her up and we praised her. But after Father's Seung Hwa, we see that the principles that Father established and the works that he began have been torn down one by one.

We witnessed that Mother's intent and will were not identical with Father's. If they are not one, then they must be separate and if they are separate, we have to choose which to follow. If we are forced to make a choice, there is no doubt, there can be no doubt that we will have to choose to follow Father, not Mother. There can be no argument. (It is not necessary) for any complicated explanation about this.

Those who promote Han mother as being one with Father, those who say that she is one with Father, even though she is going a separate path, are fallen archangels.

Han mother has said as follows, "I was the only begotten daughter from the beginning. I am the Messiah. Isn't it true that Father was born with Original Sin, isn't that true? She said. "But I was born without Original Sin." She has made these statements.

These are the statements, she has made in public and the ideal that we had in our minds when we attended True Mother, that ideal has disappeared now. Family Federation claims that Father and Mother continue to be one...this is nothing more than their misusing and abusing Father's accomplishments during his lifetime.

Hyung Jin Moon gave mother a chance to repent and to return to Father. He gave her a chance to repent and to return to the Cain and Abel that Father had established, that way was opened for her. He gave a declaration through his sermons and this was done because of Hyung Jin Moon's deep spiritual communication with True Father. Of course, we know Han mother ignored these calls for her repentance.

One day Hyung Jin Moon was shedding tears as he established his son, Shin Jun as the next inheritor. He called up his son, Shin Jun to the stage and had his other children bow down to Shin Jun. Also Yeon Ah Nim bowed down to her son, Shin Jun, even though he was her son and still she bowed to him and promised, made a commitment to attend him as her King in the future. Hyung Jin had Yeon Ah make a

public promise that when Shin Jun becomes the third King, that she will not usurp that position, but will submit herself to him as her King. On that day, everyone in the Sanctuary Church congregation was moved to tears to see this. Because Yeon Ah inherited the responsibility of the Mother in this way, the Han mother no longer has the responsibility of the Mother.

Because that position has now passed to Yeon Ah Nim, now, even if the Han mother were to repent, she would be able to return, perhaps, as Hyung Jin's physical mother, but certainly not as True Mother. This is not Hyung Jin Nim's will; it is the will of True Father, Sun Myung Moon. Because the responsibility and mission of True Mother has been passed on to another person, when a central figure fails, that mission gets passed on. Once a central figure fails in their mission, Heaven does not, God does not, call that person again. Therefore, Han mother is now nothing more than a person who failed to fulfill the mission of the True Mother.

Even though there is no position in the universe as glorious as True Mother, mother threw away that position herself because she attempted to elevate herself, because she attempted to uphold herself, she left her position as True Father's True Object partner. Now she has fallen to a position where she has no relationship with True Father.

So now, she is using the term "Only Begotten Daughter" to try to gather glory to herself, but we need to look at what that actually means. Everyone who is in the Unification Movement worldwide follows Father, follows his Words, and studies his Words and attempts to practice his Words in our own lives. That is true for every single individual who is part of the Unification Movement. No one should try to lift up oneself, to declare himself or herself as Only Begotten Daughter or some kind of glorified position like that. Instead, we should all be trying to follow Father and to practice his words in our lives. We have to become people that practice this in our own lives. That is what it means to be a member of the Unification Church. There are still many people, who are not aware of these things, and that is why I spoke to you this morning on this topic. Thank you very much.
